

PREMIUM-WIRE GALBLINE®

Available in 3 diameters: 2,1 mm, 2,5 mm and 2,7 mm

Special characteristics

Oil-hardened wire core

C-shape Profil

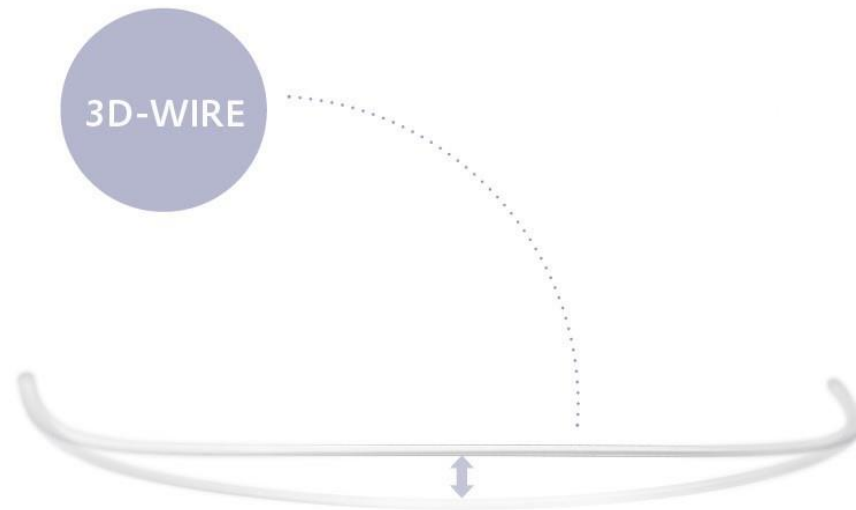

Advantages

- Superior fit for every possible movement, the wire moves away from the body and does not pinch.
- Comfortable through the round curve.
- Much better form stability compared with common underwires

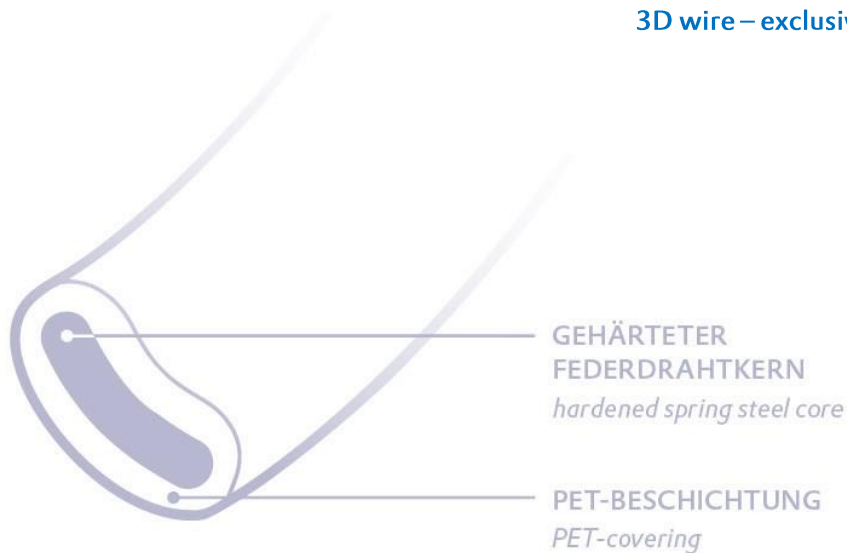

Applicaton: the round side of the wire has to show towards the body!

Combining our bra underwires with our bra underwire sleeve results an ideal product.

PREMIUM-WIRE ERGOLINE®

3D wire – exclusively by wissner

Available in 3 diameters: 2,1 mm, 2,5 mm and 2,7 mm

Special characteristics

Oil-hardened wire core

C- Profil plus 3D-shape

Advantage

- Superior fit for every possible movement, the wire moves away from the body and does not pinch.
- Extremely comfortable
- The wire is curved vertically, optimally adapts to the body shape and retains its shape, even for large sizes

Application: the round side of the wire has to show towards the body!

Combining our bra underwires with our bra underwire sleeve results an ideal product.
